

## ***TRANSPORTATION/STRUCTURAL SERVICES***

**M**issman has been providing transportation and structural engineering design services for over 60 years. Designs include, but are not limited to:

- ◆ Interstates
- ◆ Major two-, four-, and six-lane highways
- ◆ City streets
- ◆ Structures over large rivers
- ◆ One-span bridges over small creeks
- ◆ Box culverts
- ◆ Pedestrian bridges

Missman has also designed such notable projects as Veterans Parkway in McLean County, Illinois and the U.S. 34 over the Fox River in Oswego, Illinois. Both projects received awards from the Consulting Engineers Council of Illinois and the Illinois Department of Transportation. Transportation/Structural services include:

- ◆ Streets, roads, highways & rail service
- ◆ Traffic control systems
- ◆ Recreational trails and paths
- ◆ Parking facilities
- ◆ Pavement condition studies
- ◆ Intersection design and studies
- ◆ Interchange design
- ◆ Airport planning/design/reconstruction
- ◆ Design reports
- ◆ Environmental Assessments
- ◆ Right-of-way plats, plans & descriptions
